aro™

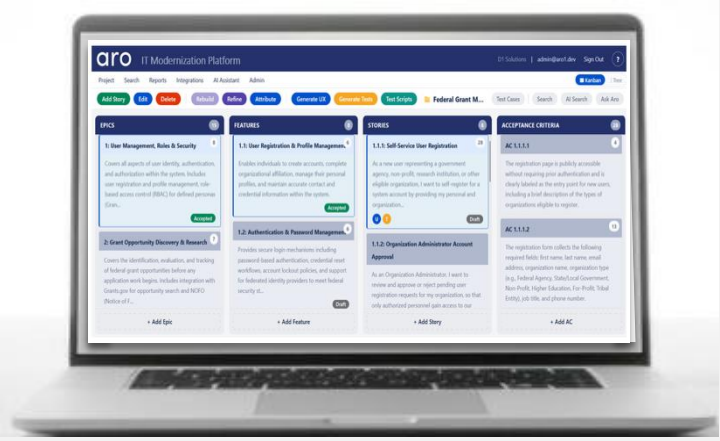

Aim higher. Deliver faster.

ARO is an AI-powered platform that helps teams bring software to market faster. It reduces manual work, aligns teams, and speeds delivery from requirements to release.

WHY ARO?

Deliver more value with the same team.

- **Improve software quality** to better meet customer needs.
- **Deliver software faster** with clear requirements and aligned teams.
- **Lower delivery costs** by reducing manual work and rework.
- **Expand team capacity** to deliver on more mission goals without more headcount

CLEAR REQUIREMENTS

Turn scattered knowledge into development-ready requirements.

MOCKUPS IN MINUTES

Create alignment early to reduce rework.

FASTER DEVELOPMENT

Deliver mission-ready software without costly delays.

RELEASE WITH CONFIDENCE

Generate automated tests with end-to-end traceability to catch gaps early.

WHAT HAPPENS NOW

- ✕ Translation problems → bad requirements
- ✕ Misaligned teams → costly rework
- ✕ Manual tools → low-value task waste
