Past Performance

USDA Food and Nutrition Service (FNS) Program Management & Technical Advisory Services (2024-2025)
Implemented Databricks Enterprise Data Platform and managed custom applications, Salesforce, and Drupal application development and O&M projects. (Subcontract)

USDA Food and Nutrition Service (FNS) Grants Application Modernization (2025-2026)
Modernized the SNAP-Ed plan and reporting application by migrating to Azure cloud-based, low-code Microsoft Power Platform, to enhance operational efficiency and security. The new solution streamlines workflows, reduces manual processes, and improves the user experience. It also ensures more reliable, real-time access to program data, supporting better decision-making and program oversight. (Subcontract)

HUD Single Family Mortgage Asset Recovery Technology (SMART) Modernization (2026-present)
Modernizing HUD's SMART loan servicing system through application enhancements, workflow automation, and improved reporting to streamline loan servicing operations, enhance system performance, and support HUD's mortgage loan portfolios. (Subcontract)
